2. [redacted] Russ Fee, Secretary, Joint Atomic Energy Intelligence Committee, called and it was agreed that he would report to George Murphy, Deputy Director, Joint Committee on Atomic Energy, a recent probable significant event and that the explanatory papers would be reviewed with Murphy by a representative of OLC.

Later, Fee advised that he had so reported to Murphy and that Murphy had concluded that we hold any post-event information for the fuller exposure it deserved for the Director's briefing of the Joint Committee some time after the first of the year.

3. [redacted] Called Kathy Smith, in the office of Senator Stuart Symington (D., Mo.), to alert her to the purpose of the visit of [redacted] She said the Senator is being besieged by many [redacted] on this subject and is keeping his distance and making no comment. She appreciated our interest in alerting the Senator. [redacted] has been advised.

4. [redacted] Called Bill Skidmore, OMB, concerning his memorandum to all legislative liaison officers requesting comments on the latest draft amending S. 1 and S. 1400--Criminal Code Reform Act of 1973. I explained that we did not receive his memorandum in time to have an Agency representative attend the meeting which was held on Thursday, 17 October, at the Justice Department. Skidmore asked that all comments on the bills be referred to Karen Skrivseth, Justice; copies of the latest draft are available through her office. December 1 is the deadline for Agency comments to be submitted to OMB on the bills.

5. [redacted] Jan Alberghini, Senate Judiciary Subcommittee on Administrative Practice and Procedure staff, requested a listing of all requests to the Agency for information under the Freedom of Information Act since 1 January 1972. The list should indicate the date of the request, the subject matter, and the date of our response. She explained that this same information was being requested of all agencies.
